

1) **Employee :-** The attributes along with the constraints are

Employee_Id: Primary Key, Not Null, Unique

First_Name: CHAR(20)

Last_Name: CHAR(20)

DOB(date of birth): DATE

Sex: char(1) ('m' or 'f')

Date_of_Joining : DATE, not null

Address: CHAR(50)

Salary: INT

Store: FOREIGN KEY (Store)

Employee_type: CHAR(10)

Phone_No:

Qualification: CHAR(12)

2) **Store:-** The attributes along with the constraints are

Store_id : Primary Key, Not Null, Unique

Address : CHAR(50)

Established_On: DATE

No_of_Employees : INT

Contact_No : CHAR(12)

Manager: Foreign Key, Not Null

Start_Time: TIME

3) **Product:-** The attributes along with the constraints are

Product_Name :

CHAR(10) UNIQUE

Industry_Id : Foreign key, Not Null

Store_Id : Foreign key, Not Null

Manufacture_Date : DATE

Expire_Date : DATE

Price (MRP) : INT

Procurent_Cost: INT, Not Null

4) **Customer:-** The attributes along with the constraints are

Customer_id : Primary Key , Not Null, Unique

first_name : CHAR(20)

last_name : CHAR(20)

Address : CHAR(50)

Sex: CHAR(1)

Phone_no: CHAR(12)

Doctor_id: Foreign Key

5) **Industry(Manufacturer):-** The attributes along with the constraints are

Industry_Id: Primary Key , Not Null, Unique

Address : Not Null

Industry_name: Not Null

6) **Doctor**:- The attributes along with the constraints are

Doctor_id : Primary Key, Not Null, Unique

first_name: CHAR(20)

last_name: CHAR(20)

Phone_No : Not Null

Address : CHAR(50)

Hospital_Id : Not Null, Foreign Key

Sex : CHAR(1)

Qualification : CHAR(50)

7) **Hospital** :- The attributes along with the constraints are

Hospital_id : Not Null, Primary

Hospital_name : Not Null

Hospital_type : Not Null

Address :

Head_of_Department: Foreign Key

8) **Refunds** :-

Refund_id : Primary Key , Not Null

Customer_id : Foreign Key, Not Null

Purchase_id : Foreign Key , Not Null

Refund_price : Not Null

10) **Delivery**:-

Industry_id : Not Null, Foreign Key

Product_id : Not Null, Foreign Key

Total_items : Not Null

date : Not Null

Total_paid : Not Null

12) **Feedback** :-

Feedback_id : Primary Key, Not Null

Customer_id : Not Null , Foreign Key

Date_of_feedback : Not Null

Feedback_body :

13) **Purchase** :-

Purchase_id: Not Null, not primary key

Customer_id: Not Null , Foreign key

Date: Not Null

Payment_method:

Product_name:

Total_items_of_the_Product :

Total_Price : Not Null
